

IDN Policy for .GLOBAL

Supported Languages and Scripts

The Registry Agreement between The Internet Corporation for Assigned Names and Numbers (“ICANN”) and Dot Global Domain Registry Ltd (“Registry”) was amended on 18 September 2014, to allow the Registry to support registrations on the second level for the following Internationalized Domain Names (IDNs) languages/scripts:

Arabic language
Belarusian language
Bosnian language
Bulgarian language
Chinese (Simplified) language
Chinese (Traditional) language
Croatian language
Danish language
German language
Finnish language
Hindi language
Hungarian language
Icelandic language
Korean language
Latvian language
Lithuanian language
Macedonian language
Montenegrin language
Polish language
Russian language
Serbian language
Spanish language
